Empowering employees in all areas, including their administrative needs, has proven to increase employee to company loyalty and customer service. When empowered, a company creates a work environment and corporate culture that through the hardest of times is a fair and equitable environment; and one in which the company's most valuable resource, its people...thrive.

- Jerry Ash. Accountability: Freedom-based vs. Control-based Organizational Cultures.

The Evolving Virtual Enterprise (EVE) iPortal's TimeEFX™ Module by X-tier Systems Architects and Engineers Corporation, allows your employees and/or consultants a self-service and efficient way to report their time and correct it as needed. TimeEFX™ effectively streamlines the time tracking and reporting process so much, that in several cases, businesses using TimeEFX™ have reduced the time spent managing faxes, emails, and other forms of time entry, from days to minutes!

Because TimeEFX™ is hosted by X-tier and is Web-based, there is no software to load, maintain, or technical staff to hire. Improve your operational efficiency with TimeEFX™; remember, happy employees are loyal and customer focused employees!

Save money and automate time reporting by using EVE's TimeEFX™ to manage, track, and report, employee and/or consultant time and attendance,

accurately and efficiently while reducing the time and pain associated with payroll for exempt and non exempt personnel.
